

Jessica Shiny Ruphina

Chennai, Tamil Nadu | jessicaruphina@gmail.com | linkedin.com/in/jessica-shiny-ruphina | github.com/Jessica-ysr

PROFESSIONAL SUMMARY

Full Stack Developer and 3rd-year Computer Science student at Sathyabama Institute of Science and Technology (CGPA: 9.1) with hands-on experience shipping production-grade web applications using React, FastAPI, and PostgreSQL. Proficient in Python, SQL, Java, and C++; experienced in REST API design, OOP, DSA, and Agile SDLC. Delivered multiple real-world projects end-to-end and actively integrating AI/ML capabilities into software products.

EXPERIENCE

Conference Moderator

Mar – Apr 2026

IFERP — ICRCET-2026 (International Conference) | Bengaluru

- Moderated technical sessions at a hybrid international conference with 200+ research scientists, engineers, and academic delegates, managing real-time speaker and panelist coordination.
- Ensured seamless session flow and stakeholder communication across in-person and virtual attendees, demonstrating strong public speaking and cross-functional communication skills.

Design Team Member

Jun 2025 – Present

AWS Student Builder Group, Sathyabama Institute of Science and Technology | Chennai

- Designed promotional and technical assets for 4–5 campus events; applied frontend design principles and brand communication strategies to increase community engagement.
- Produced documentation and stakeholder communication materials, collaborating cross-functionally across marketing, tech, and leadership teams.

Event Coordinator

Aug 2024 – Present

Sathyabama Institute of Science and Technology | Chennai

- Planned and executed 4–5 technical and non-technical campus events end-to-end, applying Agile-style sprint planning, stakeholder management, and post-event retrospectives.
- Secured 3rd place in 'Query and Conquer' — a DBMS technical quiz — demonstrating applied database knowledge under competitive conditions.

PROJECTS

SendSafe — AI-Powered Communication Assistant — React.js · FastAPI · Groq API · LLaMA 3.3 · Vercel · Render

- Built and deployed a full-stack web application that analyzes messages for conflict in real time — integrating LLaMA 3.3 via Groq API to generate conflict scores, flag aggressive phrases, and surface calmer AI-generated rewrites.
- Designed REST API architecture with FastAPI backend and React.js frontend; deployed via Vercel and Render. Live: sendsafe-neon.vercel.app | github.com/Jessica-ysr/sendsafe

Physiq — AI Fitness Intelligence Platform (In Progress) — React.js · FastAPI · PostgreSQL · Gemini Vision API

- Developing a full-stack fitness web app with JWT authentication, AI-generated workout plans, daily activity logging with streak tracking, protein/hydration monitoring, and a Vision AI form checker for real-time exercise feedback.
- Architecting a scalable PostgreSQL + FastAPI backend with a weekly progress dashboard and AI Coach chat interface; applying production-level state management and API design patterns.

Developer Portfolio Website (In Progress) — React.js · Vercel

- Building a responsive, recruiter-focused portfolio site with modern UI/UX animations, performance optimization, and clean deployment pipeline. Live: jessica-portfolio-iota.vercel.app

SKILLS

Languages: Python, Java, C, C++, SQL

Web & Full Stack: React.js, HTML, CSS, JavaScript, FastAPI, REST API Design, Backend Development, Web Application Development

Databases & Cloud: PostgreSQL, Database Management System (DBMS), Git, Version Control

AI / ML: LLM API Integration (Groq, Gemini), Computer Vision, Machine Learning Fundamentals
CS Fundamentals: Object Oriented Programming (OOP), Data Structures & Algorithms (DSA), Software Development Life Cycle (SDLC), Agile Methodology
Soft Skills: Technical Communication, Public Speaking, Event Management, Cross-functional Collaboration, Problem Solving

EDUCATION

B.E. Computer Science and Engineering — CGPA: 9.1 <i>Sathyabama Institute of Science and Technology, Chennai</i>	<i>Aug 2024 – Jul 2028</i>
12th Grade, Computer Science — 88.6% <i>St. Joseph of Cluny School, Pondicherry</i>	<i>2022 – 2024</i>

CERTIFICATIONS & LICENSES

Data Mining — NPTEL Elite IIT Kharagpur Proctored Score: 63%	<i>Apr 2026</i>
Python for Data Science & Analysis — NPTEL Elite IIT Madras Proctored Score: 64%	<i>Jan 2025</i>
Ignite Bootcamp: Idea to Plan Wadhvani Foundation Score: 18 hrs	<i>Sep 2025</i>

HONORS & AWARDS

3rd Place — Query and Conquer (DBMS Technical Quiz) Sathyabama Institute of Science and Technology	<i>Jan 2026</i>
Certificate of Appreciation — Student Coordinator, NPTEL Java Programming Dept. of CSE, Sathyabama Institute	<i>Sep 2025</i>
